PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO:	City Council	<u>Project Data</u>	
		Originally Budgeted:	1988/89
FROM:	City Manager	Budgeted Fund:	Water Fund
		Amount Budgeted:	\$15,000
		Bid Opening Date:	7/11/89
MEETING DATE:	June 21, 1989		
AGENDA TITLE:	Specifications for Air Compressor for Water/Wastewater Division		

RECOMMENDED ACTION: That the City Council approve specifications for the purchase of a portable air compressor for the Water/Wastewater Division and authorize advertising for bids.

BACKGROUND INFORMATION: This project consists of purchasing a towable 185 CFM air compressor for the Water/Wastewater Division as part of the equipment needed for the water meter crew approved by the City Council on January 18, 1989, under the two-year Water Capital Improvement Program.

It is critical that the compressor have lockable, full-length, tool storage within the equipment housing sufficient for all attachments and air-driven tools. City staff has found only one compressor, manufactured by Leroi, that is designed with wheels that extend beyond the tool boxes to meet this requirement.

Jack L. Ronsko
